Dear Ken:

Evelyn and I enjoyed the expedition to New England very much. I know that you and Bert also did. It should be improved, enlarged and continued, in my opinion.

I am enclosing a check for \$50 so that you can make it out in the appropriate name.

Under separate cover I am sending you the Bank of New York Bicentennial History, and will add to it the duplicate catalogs which I bought in Lebanon, New Hampshire.

Our best wishes,

Dear Glenn:

As you probably have heard, the Festival in New England was most enjoyable for the speakers as well as the other participants. One of the nice things that happened was the distribution of your work on the art of Victor D. Brenner. Stimulated by the visit to the home of St. Gaudens, I reread your Brenner material. Those two were truly great artists.

My kindest regards,

Dear Mr. McCarrison:

I want to express the sincere appreciation of all those who participated in the American Numismatic Association's first Numismatic Festival.

The courtesies extended to our group and the privilege of touring the Antiquarian Society, were highlights of our week long adventure in New England.

I was especially appreciative of the attention rendered by Ms. Georgia Bumgardner, Curator of your Graphic Arts Collection. Under separate cover, on behalf of the members of the American Numismatic Association, I am sending to her attention, a complete set of The Numismatist, our official journal, on microfiche. Although our journal will not reach its centennial year until 1988, the microfiche will include the first 100 years with annual updates being furnished to you with our compliments.

The American Numismatic Association Library contains over 10,000 volumes related to money. If at any time we can be of help to you or to your members, please do not hesitate to contact me.

Both organizations are fortunate to have Eric P. Newman as a member in common. His lecture at the Antiquarian Society was most informative and we thank you for the opportunity of attending.

Sincerely,

Edward C. Rochette

Dear Ed:

Although Evelyn and I thanked you and MaryAnn personally, I wanted to formally express my appreciation for the planning and thoughtfulness you did to make the ANA Festival a success. Every participant enjoyed it. I believe that Dave Bowers, in suggesting and developing it, really created something unusual. I think the project should continue if more participation results.

I was afraid that some of our group might have been disappointed with the fact that four of the scheduled speakers did their speaking and then left and that a fifth scheduled speaker withdrew. However, satisfaction and delight were universally evident throughout the experience. Maybe speakers should phase in and out, or be heard and not seen.

The sites which were visited were fascinating. The food was delicious. The group got along with one another well regardless of age differentials, etc.

Adequate publicity about the first Festival will probably generate enthusiasm for another. Whether it should be elsewhere or have different speaking topics can be considered if ANA came out alive financially.

Without your arrangements, we would all have had egg (scrambled) on our faces!

Cordially,

Eric P. Newman
